COMPANY SPECIFICS:

Established: 2010
Registration No.: 2010/161111/23
VAT Registration: Not VAT Registered

WHO WE ARE:

Herbst Online is an Information Technology solution that cares about its clients and their needs. Our aim is to help the individual or small business get the best product or support they need in the shortest time possible, at the best price.

When it comes to IT Support, we have skilled staff that have been in the industry for years, we also make use of outsourced IT support from our trusted network of partner companies should you not be in Cape Town. We have you covered in any of the major cities in South Africa.

While we mostly service small business and individuals, we do have some larger national corporate clients that make use of our services... so big or small, we can assist you.

When it comes to sales, along with our standard suppliers, we are also in partnership with ESET for Antivirus and HP for hardware. We will find the best pricing possible.

Herbst Online also offers web design as a service. We will manage the domain hosting, registration or transfer if required.

Along with the creation of the web site, if need be we can design business stationary that is complimentary to the design.

We look forward to doing business with you!

SERVICES WE OFFER:

IT Support:

Professional, no nonsense IT support with tailor-made support packages that keep your budget in mind be it at home or business.

Our services include:

- Network administration, maintenance and support*
- Network design and consultancy*
- Small or large business account management (SLA)*
- Asset management and tracking*
- Network and Hardware auditing*
- General hardware and software support or repair*
- General IT support*
